CRAFTING INNOVATIVE FIREWORKS

SINCE 1994

Raccoon Fireworks owns three state-of-the-art facilities with an annual capacity of over 400,000 cases. In addition to our own Raccoon brand, we provide private label services to over 100 brands around the world. We specialize in display shells, professional cakes, 500 gram cakes, 200 gram cakes, and canister shells.

QUALITY AND SAFETY

Our three factories are all class A factories, the highest qualification for fireworks manufacturing in China. Our production lines are ISO certified and all products conform to CPSC, APA and/or CE European standards.

CONVENIENCE

We have a dedicated US-based service team to take care of all your needs, including product questions, production status, import/export paperwork, payments and shipping logistics. Our team is easy to contact and ready to assist you with all your fireworks needs.

INNOVATIONS

Our production is under the direct supervision of Mr. Steven Zhou, a sixth-generation master pyrotechnician known for his passion in fireworks and his craftsmanship. Over the years, our engineering team has been awarded 12 patents in fireworks products and manufacturing processes. Our ghost shells, willow effects, European-style shell are the envy of the industry.

RELIABILITY

We understand how important on-time delivery is—especially ahead of the busy holiday season—and we take every shipment schedule seriously. That's why we have a proven track record of delivering products on time, with careful planning to ensure early and reliable shipments. As a factory-owned brand, we have a unique advantage in managing every step of the process, from raw material preparation to production scheduling and workforce coordination. This level of in-house control is something few major fireworks brands can offer. Because we directly manage our production, we are able to provide greater stability, consistency, and confidence in both product availability and delivery timing—making us a truly reliable partner for your business.

1.4G PRO CLOSE PROXIMITY OUTDOOR PYROTECHNIC

Close Prox Pyrotechnics

Close Proximity Pyrotechnics is the perfect solution for your event when there is not enough space for an aerial fireworks display. Seen at many sporting events, weddings, theme parks and resorts this is the option we suggest for an up-close experience like none other.

Close Proximity pyrotechnics can be used in areas with as little as 15ft of firing radius and produce little to no debris and smoke. Close Proximity pyrotechnics can be split into two different categories Indoor / Stage Pyrotechnics & Rooftop / outdoor proximate displays. Our Close Proximate Fireworks are the most trusted and reliable services across the United States.
